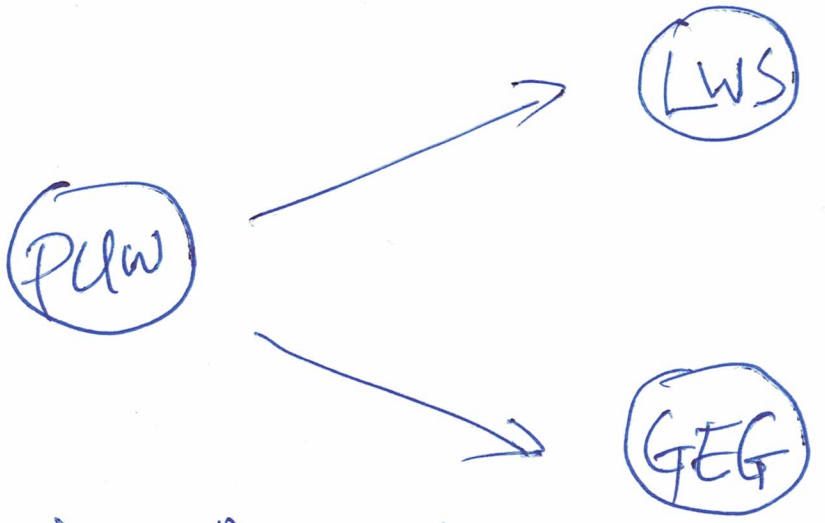
Cpts 317. 9/23

nondet. ≠ randomness. in what sense?

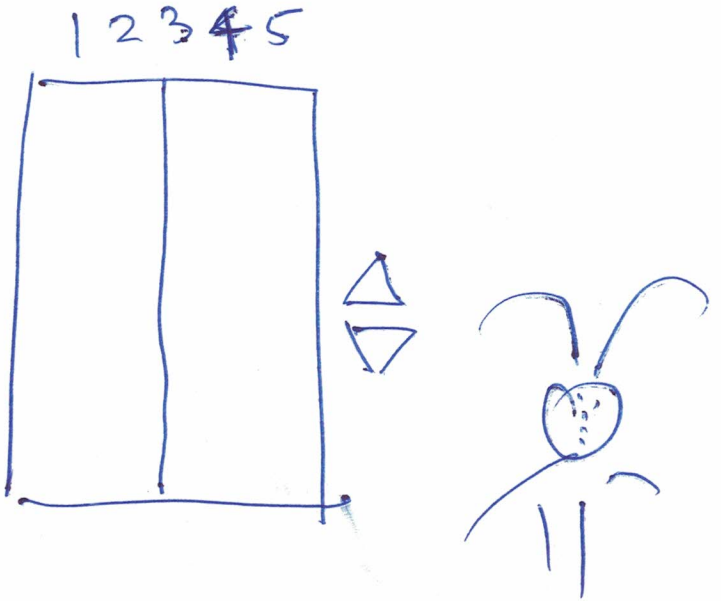
(nondet. systems/programs/machines).

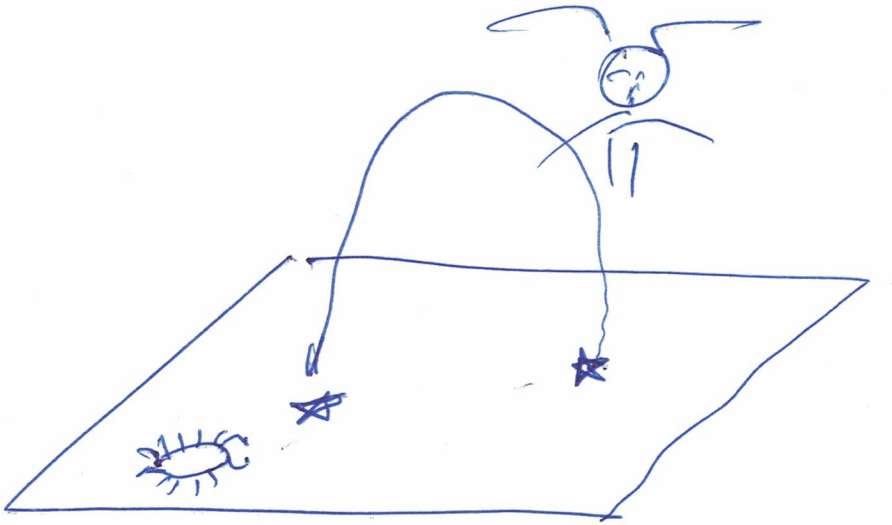


You are in pullman. There is exactly one TV for sale in either lewiston Costco or in spokane costco. You are a nondet. machine: How to get the TV?

Guess a ~~TV to~~ city to go;
when you enter the costco at the city, you will see the TV on sale.

root cause of nonlocal: —— hidden interface.





double-slit experiment with delayed-choice.

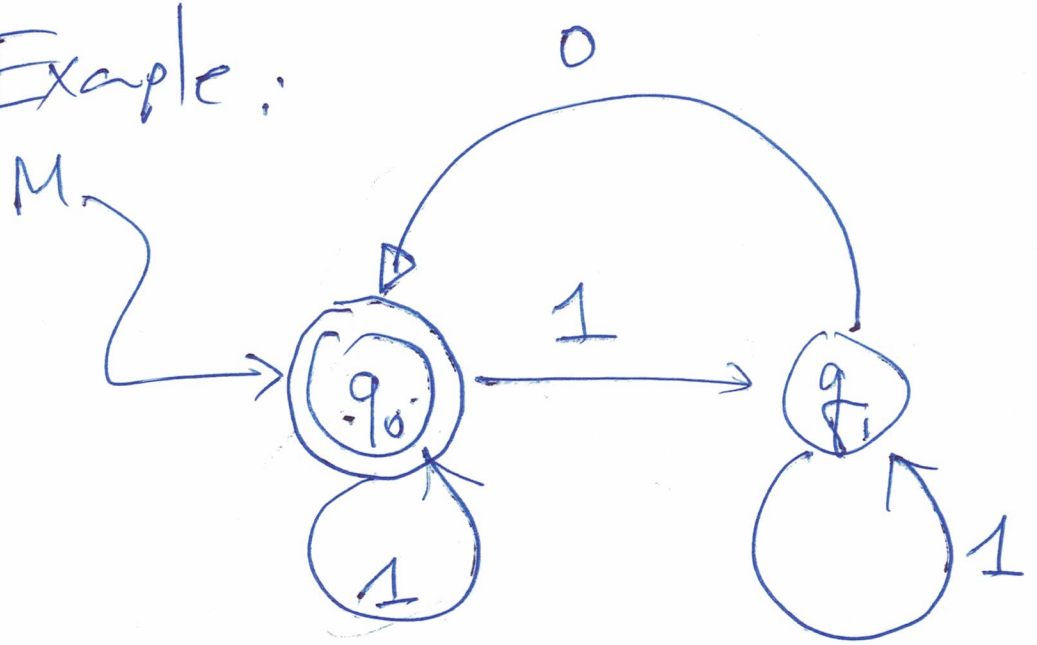
NFA. (nondet. FA).

Formally, an NFA is the same as a DFA, except for the δ:

$$\delta : Q \times \Sigma \to 2^{Q}$$

(the set of all subsets of Q).

Example:



$$\delta(q_0, 0) = \emptyset$$

$$\delta(q_0, 1) = \{q_0, q_1\}$$

$$\delta(q_1, 0) = \{q_0\}$$

$$\delta(q_1, 1) = \{q_1\}.$$

10 is accepted by M, b.c

$$q_0 \xrightarrow{1} q_1 \xrightarrow{0} q_0 \checkmark$$

00 is not accepted!

(you can't say 00 is rejected in an NFA).
